

## LTL & TL California Trucking

Ray Brothers Transportation, Inc. (MC#241528), established in 1963, is a California-based commercial trucking service company, offering Less Than Truckload and Truckload transportation service throughout the contiguous 48 states. Our job is to please not only the party paying for the freight, but the people shipping, trucking and receiving the freight. We have found that if all parties are satisfied it sets up repeated good business relationships for the future.

We excel at transporting dry goods at economic prices. Ray Brothers Transportation has developed strong relationships with many different carriers and shippers which allows us to determine the most efficient shipping methods, and to:

- Offer competitive rates for Truckload and Less Than Truckload (LTL)
- Offer Personalized Quality Service
- Offer quick pay at no cost.
- Offer team trucks
- Offer satellite tracking

For 45 years Ray Brothers Transportation has been committed to providing quality service to our customers. That is a tradition begun by our founders - Glenn Ray, Robert Ray, and Joe Ray.
